

## **Electronic Marketplace**

The Zurich Chamber of Commerce is participating in an international online marketplace created by the International Chambers of Commerce Organisation. Members of the chambers and other companies have the possibility to offer and look up business opportunities (products, services, representation and cooperation) on this worldwide online portal.

## **Realisation of Opportunities**

The business opportunities are entered into the system anonymously by all the connected chambers of commerce on behalf of their members. If a business opportunity is of interest to someone, they have to contact the chamber of commerce who entered the opportunity via email. This chamber of commerce will then forward the message to the advertiser. This guarantees that a serious business partner lies behind the electronic advert and that the participants remain anonymous.

## **Queries for Opportunities**

You can sign up and enquire about business opportunities at [www.worldchambers.com](http://www.worldchambers.com).

## **Creating a company**

The website [www.gruenden.ch](http://www.gruenden.ch) is the platform for the creation of companies in the canton of Zurich. It offers lots of pertinent information also about topics relevant after the company has been set up.
